1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows:

The election of species requirement made in the Office Action of 11/16/04 has been withdrawn in view of the allowance of generic claim 1. All of the apparatus claims have been examined on the merits.

2. The following is an examiner's statement of reasons for allowance:

The prior art does not teach or suggest a thin film magnetic head having a lower core, a protruding layer on the lower core adjacent the surface of the lower core facing the medium, a back gap layer on the lower core remote from the medium and spaced from the protruding layer, a coil in the space between the lower core, the protruding layer and the back gap layer, a coil insulating layer covering the coil, where the tops of the coil insulating layer, the protruding layer, and the back gap layer are planarized to form a continuous flat surface, a Gd-determining layer located on the flat surface and spaced from the medium facing surfaces of the lower core and protruding layer, a lower magnetic pole layer and gap layer disposed in that order on the flat surface in each region between the surface facing the medium and the Gd-determining layer and the region behind the Gd-determining layer, and upper magnetic pole layer on the gap layer and Gd-determining layer, where the lower magnetic pole layer, the gap layer, and the
